On March 1-2 #WFG held an exhibition-sale and auction “Beyond the Shelter”

With the funds mobilized through the event the kitchen of the Shelter/crisis Center for the Victims of Violence will be equipped and women will be involved in culinary course to gain professional skills necessary for employment in and beyond the shelter.

Equipping the shelter kitchen relevantly will enable the organization to launch a social enterprise – catering service that will serve as skills development opportunity for women and additional income for the shelter sustainability.

The event was a part of WFG’s ongoing campaign “Beyond the Shelter”.

Over 85 artists have contributed their artworks for the event. The honored supporter and members of advisory board of the event were: First Lady Maka Chichua, Maka Meshveliani, Embassies of Estonia, Poland and Japan, UN Women, UNDP, IWA, OSGF.

The Anti-Violence Network of Georgia (AVNG) has been working on the issues of violence against women and domestic violence since 2003 in Georgia.
